SUMMARY

I am a recent graduate in Computer and Communication Engineering with practical experience as a Full Stack Developer and Cybersecurity Analyst. I specialize in backend development using .NET, and I'm passionate about building secure, efficient systems. I'm seeking opportunities in Full Stack or Backend roles where I can apply my problem-solving skills and contribute to team success in Agile environments.

ABOUT ME

MBTI : INTP   **Hobbies:** Drawing.

EDUCATION

Udon thani Rajabhat University (July 1st 2020 – October 16th 2024)
Bachelor's degree: Computer and communication engineering   **GPAX :** 3.09

WORK EXPERIENCE

Cyber Security Analyst E-C.O.P (Thailand) Limited, Oct. 2024 - Present)

Analyzed and monitored backend system and infrastructure activities using Elastic and Splunk to ensure security and handle incidents in an Agile environment via Jira. Oversaw deployment processes to meet security standards and consistently performed within SLA requirements without receiving any complaints from any stakeholders.

Full Stack Developer (Parttime) ROCTEC GLOBAL PUBLIC COMPANY LIMITED (June 2024 – July 2024)

Developed and maintained full-stack components using C#.NET and provided daily task updates to the team.

Full Stack Developer (Internship), SSL Logistic (Oct. 2023 – Mar.2024)

Experienced in designing responsive web applications with a strong focus on usability and design consistency. Skilled in supporting UX/UI tasks and collaborating with cross-functional teams to ensure a seamless user experience. Able to perform well under pressure and adapt quickly when revisions are needed.

SKILLS
HARD SKILLS
Programming Languages

Java, Python, PHP, C++, JavaScript, HTML, CSS and C# .NET

Frameworks & Libraries

Spring Boot, Django, Laravel and Bootstrap & Ant Design

Tools & Platforms

Git, Jira, PowerPoint, Visio, Word, Excel and Salesforce Development

SOFT SKILLS

Team work : Collaborated effectively in teams of 7+ to achieve shared goals.
Service-Oriented: Gained strong customer service skills from internship at GSB Bank.
Problem-Solving : Able to identify issues and deliver timely solutions.

PROJECTS
log-user-behavior

Tech Stack: Python (Flask), Vue.js, ELK Stack (Elasticsearch, Logstash, Kibana), JWT, Docker
A login system with user role management and activity tracking. Connected to the ELK API to monitor device usage and user logs. Built with Python (Backend) and Vue.js (Frontend). Currently under development with role control and UI enhancements in progress.

Student management Web application

Tech Stack: PHP (Laravel), MySQL, HTML/CSS, JavaScript
A web application for course registration and management, where students can register for courses, add or remove courses on their own, and export registration details in PDF format.

OTHERS

LinkedIn   GitHub   Hacker rank

CERTIFICATES

Google Cybersecurity Professional Certificate V2
Technical Skills : Python, Linux and SQL
Salesforce Development   **Score :** 13,000++ Points
Languages : English   (B1) British Council

Camp
Metaverse Camp is a competition for creative Metaverse ideas, focusing on technology, user experience, and real-world applications, with Unity as the main tool.
